Coordinator's Report: Organizing for window dressing organizing teams for 2025 is starting.

Foam Recycling: Jen reported that Hanover/Norwich can't participate with a regional foam collection because they lack capacity for additional processing. For a number of reasons there won't be a post-holiday foam collection in Hartford.

Geothermal Report for Downtown White River: Awaiting the final report. On paper it looks like there is enough space for wells by using the parking lot and land under the hotel.

Level 3 Chargers: WRJ will get 8 fast charges. Norwich Technologies was awarded the contract. State and Norwich technologies put up the money. No town money was spent.

Climate Action Steering Team annual report is due at the end of the year. Contact Dana if you were not at this meeting and have topics to include in the Town Report.
